

## WATER CoRe Survey

### New publications

March 2012

*This is a selection of recently published publications from the WATER CoRe Survey. For more results and detailed bibliographic information please consult the WATER CoRe Survey database.*

#### [Roadmap - Fitness check freshwater policy](#)

Survey Document-ID: 127

<http://ec.europa.eu/environment/water/blueprint/pdf/roadmap.pdf>

This document describes the tasks and phases for the EU freshwater policy fitness check, which will be part of the 2012 blueprint.

#### [Climate Change Effects on Groundwater Resources - A Global Synthesis of Findings and Recommendations](#)

Survey Document-ID: 131

<http://www.crcpress.com/product/isbn/9780415689366> (printed book purchase information)

This volume contains case studies from diverse aquifer systems, scientific methods, and climatic settings that have been conducted globally under the framework of the UNESCO-IHP project Groundwater Resources Assessment under the Pressures of Humanity and Climate Change (GRAPHIC). This book presents a current and global synthesis of scientific findings and policy recommendations for scientists, water managers and policy makers towards adaptive management of groundwater sustainability under future climate change and variability

#### [Towards efficient use of water resources in Europe](#)

Survey Document-ID: 132

<http://www.eea.europa.eu/publications/towards-efficient-use-of-water>

This EEA-report provides an overview of water resource efficiency in Europe. It gives an introduction in the EU water efficiency policy, including the blueprint, water efficiency measures, also with regard on the linkage between water and energy sector, economic instruments and information management.

#### [Climate-ADAPT](#)

Survey web resource-ID: 28

<http://climate-adapt.eea.europa.eu/>

The European Climate Adaptation Platform (CLIMATE-ADAPT) aims to support Europe in adapting to climate change. It is an initiative of the European Commission and helps users to access and share information on: Expected climate change in Europe, current and future vulnerability of regions and sectors, national and transnational adaptation strategies, adaptation case studies and potential adaptation options as well as tools that support adaptation planning.
